DESCRIPTION

Work shoes low-top shoes with **ultra-breathable Nylon** upper and soft suede side bands and laces in contrasting color. **Wingtex®** air tunnel **lining** and WOW2 **insole** with **anti-fatigue** insert for added **comfort** and **prolonged well-being** . In fact, the self-molding insole can dissipate body stress and improve balance and stability. **Safety shoes** with lightweight **Airtoe Composite toe cap** and Save & Flex® PLUS **Puncture resistance system** for **total** toe and sole **protection** . **Work shoes** ideal for: **craftsmen** , **bricklayers** and **construction site** , **carpenters** , **electricians** , **plumbers** , **painters** , **laborers** , **gasoline workers** , **transportation** & **logistics** , **gardeners** and **farmers** , **mechanics** and **tire dealers** . **Work shoes for men** and **women** with **non-slip** , **anti-oil** , **anti-abrasion** and **anti-static** soles.

UPPER

Ultra breathable nylon and soft suede leather

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

PROTECTION CLASS

S1PS FO SR

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

EU NORM

EN ISO 20345:2022

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

SIZES

35-48

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
