## DESCRIPTION

Low-top low-top safety shoes that are comfortable and lightweight, Carbon Offset that use raw materials from renewable sources and recycled materials with respect for the environment and eco-sustainability. U-Power Green shoes from the Red Industry Green range/assortment are Carbon Neutral and promote climate neutrality while maintaining a high level of protection and comfort, with the recognized quality of the U-Power brand. The soft microfiber upper uses a high percentage of recycled material, as does the Wingtex® Green air-tunnel lining. While, the slip-resistant, oil-resistant, anti-static, anti-puncture outsole and the anatomical, self-molding, antibacterial and anti-static WOW2 Green footbed are 100% sourced from renewable sources and ensure high grip and prolonged comfort. The toe box is protected by the ultralight AirToe Composite toe box weighing only 50 g, while the Save & Flex® PLUS Green system, which uses 59 percent recycled material, provides 100 percent protection over the entire foot area. These eco-friendly safety shoes are the ideal winter safety shoes for work situations such as logistics, automotive, assembly line and industry.

## PROTECTION CLASS

S3S CI FO SR

## EU NORM

EN ISO 20345:2022 S3S CI FO SR

## SIZES

35-48

## UPPER

Soft microfiber with high proportion of recycled material

## LINING

Wingtex® Green breathable aria tunnel with 66% recycled material

## TOECAP

AirToe Composite

## ANTIPERFORATION

Save & Flex® PLUS® Green, "no metal" puncture-resistant footbed with 59% recycled material benefits

## MIDSOLE

WOW2 Green

## SOLE/TREAD

BASF's 100% renewably sourced PU Abrasion-resistant, oil-resistant, slip-resistant and antistatic

## ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

## AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

## ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

## WOW 2 GREEN

Eco-friendly footbed composed of two technical elements: an arch support structure made from BASF polyurethane (PU) sourced 100% from renewable resources, featuring self-moulding properties to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. Designed to relieve stress associated with prolonged standing, it reduces daily fatigue during working hours.
