

Model: ONE SHOT

Article: GUG044BC

DESCRIPTION

Professional disposable glove with special 3D grip on the palm and fingers, designed to ensure a secure and optimal hold even in challenging conditions. Provides maximum grip on wet or oily surfaces, making it ideal for the mechanical industry, automotive sector, and heavy industry. Pack of 10 pieces.

Ultra-resistant and durable, it also ensures high tactile sensitivity thanks to a thickness of 0.15–0.20 mm and a light weight of 8.4 g. The ambidextrous design and powder-free composition help reduce the risk of dermatitis and contamination, increasing comfort and safety during prolonged use.

It is a Category 3 PPE compliant with EN ISO 374-5:2016 for protection against bacteria and fungi. 100% latex-free, with AQL 1.5 and suitable for food contact, it is a reliable solution for those seeking certified protection, durability, and professional grip in industrial settings.

Available in pack of 50 pieces under code GUG044BC.
