

OSLO s ESD

ORI21136

DESCRIPTION

Lace-free safety shoes with soft suede upper and **Velcro closure** . **Work shoes** with **Airtoe Composite toe cap** and Save & Flex® PLUS totally **"No Metal " Puncture resistance system** that ensure safety and protection of the toe and sole of the foot. **Lightweight and comfortable work shoes** with **self-molding insole** and **WOW2 anti-fatigue insert** that improves balance and stability, reducing body stress and improving the perception of comfort and well-being. **Safety footwear** with **anti-slip** , **anti-oil** , **anti-static** and **anti-abrasion** soles ideal in various work areas, such as: **craftsmen** , **carpenters** , **electricians** , **plumbers** , **painters** , **laborers** , **gas station attendants** , **mechanics** and **tire dealers** , **agriculture** and **gardening** , **transportation & logistics** , **construction site** and **bricklayer** . **Work shoes for men and women** .

UPPER

Soft perforated suede leather

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022

SIZES

35-47

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
