

ROCK

WDW361DB

DESCRIPTION

Rock work pants are the perfect choice for those seeking durability and freedom of movement without compromise. Made of durable **cotton/polyester stretch** fabric, they offer prolonged comfort thanks to stretch inserts at the waist that adjust to your every movement. The fabric is also **breathable**, to keep you feeling cool even during the busiest days. Sturdiness is a strong point: triple stitching and an accentuated back yoke provide added protection for the lumbar area. Polioxford knee-pad pockets, with Velcro-closed bottom entry, are designed for maximum convenience and compatible with the EN 14404-certified **ergonomic knee-pad** (Type 2, Level 1) art. GC061BC.

The bottom of the pants can be lengthened by 2 inches for a custom-made fit. Functional and practical, the Rock pants have numerous pockets to keep all your tools close at hand: two large front pockets, two back pockets with flaps and Velcro, and a zippered coin pocket. A multifunctional side pocket with Velcro holds a convenient retractable **badge holder**, while a **meter** pocket and **hammer webbing** complete the outfit. For extra security, the design is enhanced by **reflex inserts** below the knee, on the side pocket and on the back pockets, which increase your visibility in low-light conditions. A soft plastic **D-ring** and central zipper and rubberized scratch-resistant button closure make the garment even more rugged and reliable.

EU NORM

CE EN ISO 13688

SIZES

XS-5XL

COMPOSITION

60% COTTON, 40%
ELASTOMULESTER (180
g/m2) COMBINED
FABRIC:100% POLY
OXFORD 300D

U-EME

Technical fabric with elastomultiester for high performance. Provides permanent elasticity, dimensional stability and mechanical strength, maintaining shape and comfort even after intensive use.

STRETCH FABRIC

Stretch cotton fabric. Combines cotton comfort with elastomeric fiber functionality to create garments that are comfortable, durable and highly breathable.
