ROMA

WIN230GI

SIZES

S-5XL

COMPOSITION

64% Polyester • 34% Cotton • 2% Elastane Fabric: Mechanical stretch twill – 245 g/m²

DESCRIPTION

Highly functional **u.lite U-Power overalls** are ideal for professionals seeking comfort and reliability. Made **of mechanical stretch polycotton fabric** , they offer the perfect combination of **flexibility** and **strength** , allowing free movement and optimal endurance during even the most demanding activities. Designed for **maximum practicality** , this suit is **washable at 60°,** ensuring easy maintenance and impeccable hygiene. **Numerous pockets** , including one chest pocket with Velcro closure, two front pockets, two back pockets with Velcro, and a side ruler pocket, provide space for all essential tools. The presence of a webbing loop for badge holders and a pen pocket adds further functionality. The roma coveralls provide superior comfort thanks to the **elastic waist** and **cuffs** , as well as preformed knees that follow the natural curvature of the legs. Triple stitching ensures durability, while the **central YKK zipper closure** covered by a Velcro flap offers protection and convenience. **Perfect for** those working in **dynamic environments** , this coverall is designed to meet every professional need. The product is only available in 1-piece (code IN230) and 10-piece (code CY230) lots.

MECHANICAL STRETCH

Structural elasticity without added elastic fibers. Ensures comfort, flexibility and long-term shape recovery.
