

RONAN s

0RL10514

DESCRIPTION

Safety footwear with special insulation of the bottom of the shoe from heat and cold. Water-repellent work shoes with soft Pull-up leather upper and double laces. The style is made even more durable by the presence of PU reinforcing toe cap. The PU/Vibram outsole increases grip and adherence, while the Infinergy® insert ensures energy recovery. Anti-static, slip-resistant, abrasion-resistant and oil-resistant outsole, especially suitable for use on uneven terrain and treacherous surfaces. These high safety boots provide 100% protection of the sole of the foot thanks to the Save & Flex® PLUS, totally "Metal Free" anti-puncture footbed and AirToe lightweight aluminum toe cap. Ronan is a protective shoe with ultra-breathable Wingtex® air tunnel lining that provides prolonged comfort. Work shoes suitable for outdoor use in wet and cold environments: shoes for bricklayers and construction sites, agriculture, gardening, construction, road maintenance and road work, installations, port areas.

PROTECTION CLASS

S3S CI HI HRO FO SR

EU NORM

EN ISO 20345:2022 S3S HRO HI CI FO SR

SIZES

38-48

UPPER

Water-repellent pull-up leather

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® PLUS®, "no metal" textile anti-puncture footbed

MIDSOLE

U-Power original

SOLE/TREAD

PU/VIBRAM and Infinergy®

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

VIBRAM®

A world leader in the industry, Vibram® develops rubber soles designed to ensure grip, stability, durability and safety. The result of over 80 years of research and innovation, they combine advanced design and exclusive compounds to deliver high performance, comfort and reliability in any environment.

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
