

## SCURO s ESD

0RI10164

### DESCRIPTION

**Work shoes for men**, also suitable for a female audience, with **water-repellent** tumbled grain leather upper. Safety ensured by the presence of the totally textile **Save & Flex® PLUS anti-puncture insole** sewn directly to the upper, **Airtoe composite toe cap**, and **slip-resistant, oil-resistant, anti-static** and **anti-abrasion PU/PU outsole**. High-top **safety shoes** with a high level of comfort thanks to the **Wingtex® air tunnel lining** that ensures breathability of the footwear and the presence of the **WOW2 insole** composed of a self-molding arch support structure and an **anti-fatigue insert** with effects of greater balance, stability and perception of **prolonged well-being** throughout the working day. The special cold protection of the sole (A temp ≤ 10 °C.) makes **Scuro** ideal as a style of **shoes for farmer, gardener, laborer, electrician, plumber, carpenter, painter, gas station attendant, mechanic, tire repairman, transportation and logistics**.

### UPPER

Soft tumbled grain leather, water repellent

### LINING

Wingtex® breathable air tunnel

### TOECAP

AirToe Composite

### ANTIPERFORATION

Save & Flex® PLUS benefits

### MIDSOLE

Antifatigue WOW2

### SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

### PROTECTION CLASS

S3S CI FO SR

### EU NORM

EN ISO 20345:2022

### SIZES

35-48

### ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

### AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

## SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

## ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

## WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
