DESCRIPTION

Work shoes with lightweight Airtoe Composite toe cap and Save & Flex® PLUS textile Puncture resistance system providing toe and sole protection. Low-top safety shoes with ultra-breathable Nylon upper and highly abrasion-resistant Matrix microfiber . Wingtex® air tunnel lining that provides high breathability . Comfortable and lightweight work shoes with WOW2 self-molding insole consisting of an arch support structure and anti-fatigue insert that can improve balance and stability, dissipating body stress with a significant increase in the feeling of well-being . Safety footwear with anti-oil , non-slip , anti-static and anti-abrasion soles, ideal for men and women . Work shoes that are comfortable and well suited for use in different work areas such as: agriculture and gardening , transportation & logistics , construction site and bricklayer , craftsmen , carpenters , electricians , plumbers , painters , laborers , gas station attendants , mechanics and tire dealers .

UPPER

Ultra breathable nylon and highly abrasion-resistant MATRIX microfiber

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
