STRIDE ESD

0UT10104

DESCRIPTION

Stride safety shoes from the Red Fit range/assortment offer an **ideal mix of protection** , **comfort** and **durability** , perfect for those who face dynamic and demanding work on a daily basis. The **water-repellent pull-up leather upper** with extra-reinforced PU toecap ensures maximum durability and protection from wear and impact. The **FiberToe toe cap** and **Save & Flex® PLUS anti-puncture footbed** provide complete safety from impacts and punctures, while keeping the shoe extremely comfortable and lightweight. The **abrasion-resistant** , **oil-resistant** , **slip-resistant** and **anti-static PU/PU outsole** provides stability even on difficult surfaces. The **three interchangeable U-Power original insoles** included in the package allow perfect customization of fit and comfort. These **U-Power work shoes** are particularly suitable for those working in logistics, maintenance and production, or in all those sectors that require continuous movement and long periods of standing, always ensuring comfort, safety and maximum performance in every activity performed.

PROTECTION CLASS

S3S CI SC LG FO SR

EU NORM

EN ISO 20345:2022+A1:2024 S3S SC CI LG FO SR

SIZES

35-49

UPPER

Soft and durable water-repellent pull-up leather with TPU support heel. Extra reinforced PU toe cap

LINING

Wingtex® with breathable air tunnel

TOECAP

FiberToe

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

U-Power original

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

ANATOMICAL INSOLE

Natural Confort 11-12-13 Mondopoint

FIBERTOE TOE CAP

Fibertoe toe cap. Made from fibreglass to provide high mechanical resistance to impact and crushing. Weighing approximately 52 grams, it offers thermal insulation, flexibility and comfort, whilst keeping the footwear lightweight and safe.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
