

SIZES

S-5XL

COMPOSITION

98% Cotton - 2% Antistatic - 270 gr/m2

SURVIVOR

WMP253NO

DESCRIPTION

The SURVIVOR U-Power quadrivalent jacket is made of treated cotton, which, thanks to advanced technological processes, acquires the properties necessary to meet the main protection regulations/standards, offering certified safety and comfort during work activities.
Equipped with a central covered zipper closure, it features a front pocket with FR Velcro closure and reflex detail, FR silicone logo, adjustable cuffs with FR buttons and integrated loops for attaching communication devices, detectors or dosimeters.
Completing the garment are printed flame-retardant pictograms and a 4-cm elongated back hem designed to ensure proper coverage of the lumbar area even during bending or arm lifts. SURVIVOR is the ideal solution for those seeking reliable protection and everyday comfort in hazardous work environments.
