DESCRIPTION

Women's safety shoe with a soft **, water-repellent tumbled microfiber** upper and polyurethane **reinforcement toecap** for added protection and durability of the footwear. The style, with an innovative **design** and markedly ***Made in Italy*** ensures lightness and comfort thanks to the **soft** white **calfskin lining** that wraps the foot from the toe to the heel. The new **U-Power Original insole** with a leather base and part underneath in a new polyurethane compound ensures **balance** and **proper weight distribution. Lightweight work shoes** with Infinergy® intersole that ensures **high energy return** : over 55% more with every step! **Safety footwear with** Airtoe Aluminium **toe cap** and Save & Flex® PLUS **textile anti-puncture system** sewn directly to the upper to ensure 100% protection of the sole of the foot. Compact PU **outsole anti-abrasion** , **anti-slip** , **anti-oil** and **anti-static** . **Safety shoes** with **hydrocarbon-resistant** outsole and special **cold protection** (A temp. ≤ 10 °C.). **Work shoes** particularly suitable for **logistics** and **automotive** .

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-42

UPPER

Soft, water-repellent tumbled microfiber with polyurethane reinforcement toe cover

LINING

Soft white calfskin leather

TOECAP

Airtoe Aluminium

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

U-Power original leather

SOLE/TREAD

PU/PU and Infinergy®

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

WHITE TEX

Made from nanofibre to ensure maximum protection whilst keeping the weight to a minimum. Weighing around 40 grams, it is the lightest option in the range, designed to optimise balance and reduce fatigue during prolonged use.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL LEATHER FOOTBED

Anatomically shaped footbed made of soft white calf leather with arch support structure. It features a self-moulding BASF compound designed to evenly distribute body weight pressure across the sole of the foot, enhancing comfort throughout the day.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.
