DESCRIPTION

Water-repellent work shoes with mine grain **leather** upper ideal in **oilfield** , **mining** and **cold weather** conditions. Quick-drawing **safety footwear** with **Vibram sole** , **slip-resistant** , **oil-resistant** , **antistatic** and with special sole protection from cold (At temp. ≤ 10 °C.). Safety is ensured by the presence of the lightweight **Airtoe Composite toe cap** and the totally **"Metal Free** " Save & Flex® PLUS **Puncture** resistance system that provides 100% protection of the foot surface. **Comfortable safety shoes** with **anatomical** WOW2 **footbed** consisting of an arch support structure and **anti-fatigue insert** that can reduce body stress and ensure greater stability and balance with a beneficial effect on the whole body and a perception of prolonged well-being. **Breathable work shoes** with air tunnel lining that ensures high breathability and **foot health** .

UPPER

Fine grain leather, water repellent

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/VIBRAM

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

VIBRAM®

A world leader in the industry, Vibram® develops rubber soles designed to ensure grip, stability, durability and safety. The result of over 80 years of research and innovation, they combine advanced design and exclusive compounds to deliver high performance, comfort and reliability in any environment.

PROTECTION CLASS

S3S CI HI HRO FO SR

EU NORM

EN ISO 20345:2022 SB S3S HI CI HRO FO SR

SIZES

38-47

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
