DESCRIPTION

Anti-static and water-repellent shoes made of soft Pull-up leather, extremely sturdy, abrasion-resistant and dynamic traction-resistant. PU reinforcing toe cap on the front and double string, yellow and black. These safety shoes, especially suitable for outdoor use, feature AirToe Composite toe cap and Save & Flex® PLUS all-textile Puncture resistance system that provide protection and safety benefits. Safety rating with special cold insulation of the bottom of the shoe and non-slip, anti-static, abrasion and oil-resistant outsole. The Wingtex® inner air tunnel lining makes these safety shoes especially breathable, while the antibacterial, anatomical and ultra-breathable footbed ensures prolonged comfort. These safety work shoes are ideal for use outdoors, on uneven ground and treacherous surfaces, in wet and cold environments such as, installations, construction sites, construction, port areas, road work and pavement maintenance, agriculture and gardening.

UPPER

Water-repellent pull-up leather

TOECAP

AirToe Composite

MIDSOLE

WOW2

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

LINING

Wingtex® breathable aria tunnel

ANTIPERFORATION

Save & Flex® PLUS®, "no metal" textile anti-puncture footbed

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

38-48

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
