DESCRIPTION

Anti-static safety shoes with a slip-resistant, oil-resistant, abrasion-resistant PU/PU sole and "Metal Free" Puncture Resistance System Save & Flex® PLUS is sewn directly onto the upper and protects 100% of the foot surface. These comfortable, soft footwear mounts a durable, water-repellent Pull-up leather upper with Kevlar® DuPont™ stitched seams and double strings. Safety is ensured by the AirToe Aluminium toe cap and tread a high grip and posture stability. PU reinforcement toe cap increases the strength and durability of the footwear. Work shoes with high energy recovery thanks to the Infinergy® system that ensures more than 55% energy return with each step, ideal for those performing dynamic work in wet and cold environments, especially in construction and building, port areas, road maintenance and road work, installations, agriculture and gardening.

UPPER

Water-repellent pull-up leather

LINING

Wingtex® breathable ariatunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® PLUS®, "no metal" textile anti-puncture footbed

MIDSOLE

U-Power original

SOLE/TREAD

PU/PU and Infinergy®

PROTECTION CLASS

S3S CI FO SR

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

EU NORM

EN ISO 20345:2022

SIZES

38-48

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
