

Model: **TONY s ESD**

Article: 0RV20126

Protection Class: S1 PS FO SR

EU Norm: EN ISO 20344:2021

DESCRIPTION

Breathable, ultralight safety shoes with cool, super-breathable **Airnet® uppers** and soft **suede leather**. U-Power has reduced the weight of these **work shoes** through the use of a new-generation PU compound, which is **particularly light** and is used to make the tread - **non-slip**, **anti-abrasion**, **anti-static** and **anti-oil** - which, combined with the new **ultra-lightweight anti-puncture insole** and **AirToe toe cap**, has made it possible to halve the overall weight of the shoe. These **lightweight, breathable safety shoes** are ideal for the **warmer months** and provide protection and safety without forgetting comfort. In fact, the **U-Power Original** footbed - an anatomical insole made of a lightweight polyurethane compound - , , and the **WingTex air tunnel lining** ensure comfort and foot health. **Safety footwear** suitable for dry environment and especially for **truck drivers**, **logistics**, **warehouseman**, **carpenter**, **electrician** and general **craftsmen**.
