## DESCRIPTION

**Safety footwear with** Airtoe Composite **toe cap** and **anti-slip** , **anti-abrasion** , **anti-oil** and **anti-static** PU/PU **outsole** . **High-top safety shoes with water-repellent** tumbled natural soft **nubuck leather** upper with Save & Flex® PLUS **textile Puncture resistance** system, totally **"No Metal "** that provides 100% protection of the sole of the foot. **Lightweight and comfortable work shoes** with air tunnel lining for **increased breathability** and **WOW2 anatomical insole** that provides comfort and prolonged well-being thanks to its **self-molding properties** and **anti-fatigue insert** that reduces body stress and provides greater balance and stability. **Women's and men's safety shoes** suitable for different work areas and professions. **Electrician** , **plumber** , **carpenter** , **painter** , **gas station attendant** , **gardener** , **farmer** , **mechanic** , **tire repairman**, **laborer** , **transportation** and **logistics shoes** .

## UPPER

Soft, natural tumbled nubuck leather, water-repellent

## LINING

Wingtex® breathable air tunnel

## TOECAP

AirToe Composite

## ANTIPERFORATION

Save & Flex® PLUS benefits

## MIDSOLE

Antifatigue WOW2

## SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

## ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

## AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

## SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

## PROTECTION CLASS

S3S CI FO SR

## EU NORM

EN ISO 20345:2022

## SIZES

35-48

## ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

## WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
