

Model: VEGA

Article: WHL304OF

DESCRIPTION

U-Power's Vega **summer work pants** are the ideal solution for those looking for **visibility** and **comfort** . **Made from** a durable 50/50 **cotton/polyester fabric** , they are designed to withstand even the most demanding work conditions. A central zipper and rubberized scratch-resistant button closure ensure safety and durability. To provide added protection and comfort, the Vega style features **reinforcements on the lumbar area** with an accentuated back yoke, and **stretch inserts** in the waistband to ensure great freedom of movement throughout the workday. The knees are preformed to facilitate joint movement, while **triple stitching** reinforces the structure, making the pant even more durable. Vega is a highly functional and practical work pants, equipped with **two large front pockets** , **two rear flap and Velcro pockets** , **a multifunctional side pocket** and **a ruler pocket** , all designed to better organize work tools. A **reflex tape** located on the rear tubular loop **ensures greater visibility** in low-light environments, increasing workplace safety. These pants are designed to **withstand up to 50 washes** , keeping the technical and comfort qualities intact. The product is only available in 1-piece (code HL304) and 20-piece (code CY304) batches.
