

VENTURA s ESD

ORL10614

DESCRIPTION

Work shoes **Carbon Offset** that meet the needs of eco-sustainability and respect for the environment and ensure zero co2 emissions.

Ventura is a high safety shoes made from **renewable sources** and **recycled materials** to achieve **zero co2 emissions** while maintaining comfort and safety and all U-Power brand quality. Safety shoes equipped with **ultra-lightweight AirToe Aluminium** toe cap to protect toes, **Save&Flex plus green totally "Metal Free" anti-puncture system** made with 59% recycled materials and reinforcing toe cap. Ventura safety shoes feature a **Putek® Spider Repet upper** made with a high percentage of recycled material and highly abrasion-resistant thanks to Hypertex technology. **Breathable Wingtex® Green air tunnel lining** made with 66% recycled materials.

Maximum energy thanks to the **Infinergy® system** that provides more than 55% energy return **Anatomical** , **antibacterial** , **antistatic** and **self-molding WOW Green PU insole** from BASF that ensures lasting well-being and comfort.

Antistatic work shoes with **100%** renewably sourced, abrasion-resistant, oil-resistant, slip-resistant and antistatic **PU sole** by **BASF** .

Environmentally sustainable work shoes ideal for: **logistics** , **industry** , **automotive** and **assembly line** .

UPPER

PUTEK® spider repet with high percentage of recycled material

LINING

Wingtex® Green breathable air tunnel with 66% recycled material

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® PLUS® Green benefits

MIDSOLE

WOW Green in PU from BASF

SOLE/TREAD

BASF's 100% renewably sourced PU and Infinergy®

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.
