VERVE

WFU340GG

DESCRIPTION

U-Power's **Verve technical jacket** is designed to provide comfort, functionality and style in all weather conditions. **Made of** innovative **softshell with a graphene micro-fleece interior** , it **ensures even heat distribution** for optimal comfort, regardless of the temperature outside. The Verve jacket is designed for people who work on the move and are looking for a versatile and durable garment. Featuring a removable and adjustable hood with an elastic drawstring, it is **water-repellent** and ideal for all-weather conditions. Functional details include **Velcro-adjustable cuffs** and an **adjustable contoured hem** with an inner drawstring. The collar is lined with a soft micro-fleece for added comfort. Thanks to its **multi-pocket design** , this jacket offers ample storage space for everything you need. Two hand-warming pockets and two vertical chest pockets, all zippered, flank two very large interior pockets. The **central waterproof zipper closure** provides protection against the elements, while contrasting colored notches on the right vertical pocket add a touch of style. **Reflective details** on the chest and back **enhance safety in low-light conditions** . The modern design is complemented by the reflective "U-Power" logo placed on the chest and back and the reflective "lion's head" rubber label on the right sleeve. Available in four different colorways: black Black Black, Deep Blue, Dark Green, Grey Grey.

GRAFENE

Ultra-light structure with high thermal conductivity that promotes even heat distribution, offers antimicrobial properties and enhances fabric durability.
