VORTIX s ESD

0RI20666

DESCRIPTION

Lightweight , comfortable **work shoes with** soft perforated **suede** upper and mesh inserts. Contrasting yellow side bands and laces and **air channel lining** for increased breathability and prolonged comfort. **Slip-resistant safety shoes** with **oil-resistant** , **anti-abrasion** and **anti-static** soles. **Vortix** is a style of **low-top work shoes** that provide all-day comfort thanks to the **WOW2 self-molding insole** with anti-fatigue insert that reduces body stress and ensures proper body weight distribution. **Safety footwear** with **AirToe Composite toe cap** and **"No Metal"** Save & Flex® PLUS **Puncture resistance** system sewn directly onto the upper. **Men's and women's work shoes** ideal for **trucking** and **logistics** , **craftsmen** , **bricklayer** , **electrician** , **plumber** , **gardener** and **agriculture** , **painter** , **mechanic** and **tire repairman** , **warehouse worker** , **carpenter** , general **laborer** , **gas station attendant** .

UPPER

Soft, breathable perforated suede with mesh inserts

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

PROTECTION CLASS

S1PS FO SR

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

EU NORM

EN ISO 20345:2022 SB S1 PS FO SR

SIZES

35-47

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
