

Model: YARVIS s

EU Norm: EN ISO 20344:2021

Article: 0RL20514

DESCRIPTION

Soft, water-repellent and very durable Pull-up leather safety shoes with double laces. Work shoes low-top shoes with PU/Vibram soles that provide additional grip and improve grip on uneven terrain and treacherous surfaces. The sole is, in addition, oil-resistant, abrasion-resistant and slip-resistant. These safety shoes provide insulation of the bottom of the footwear from heat and cold as well as offering increased resistance to heat by sole contact ($\geq 300^{\circ} \text{C}$). 100% protection of the sole of the foot thanks to the Save & Flex® PLUS Puncture resistance system, totally "No Metal" and sewn directly to the upper, while the AirToe toe cap preserves the toes and the tip of the foot. PU reinforcement toe cap to increase the sturdiness of the footwear. Comfortable work shoes with anatomical, antibacterial and breathable WOW footbed and WingTex air tunnel lining for prolonged comfort throughout the day. Finally, Infinergy® system for energy recovery: well over 55% with each step. Yarvis is ideal for use in wet and cold environments, shoes for construction site, mason and building sites, port areas, road work and road maintenance, installations and all outdoor work on uneven terrain and treacherous surfaces.
