

BLAZYRA

WIN400RM

DESCRIPTION

The Blazyra jacket is designed to provide comfort and protection in all conditions. Made from stretch Softshell fabric, this padded jacket is breathable, windproof and water-repellent, providing the right level of thermal insulation while maintaining freedom of movement.
Functionality is at the heart of its design. It features two spacious zipped front pockets, ideal for keeping your hands warm or storing personal belongings, as well as a spacious inner pocket. The central zip fastening and adjustable, detachable hood allow you to adapt the jacket to your needs.
The cuffs are adjustable with hook-and-loop fastenings for a personalised fit.
For your safety, the jacket features reflective inserts on the elbows to increase your visibility in low-light conditions. It is also designed for customisation, with an internal opening at the back that provides easy access for printing and embroidery.
The product is available only in a single-unit pack (code IN400) and a pack of 10 (code CY400).

MECHANICAL STRETCH

Élasticité structurelle sans fibres élastiques ajoutées. Garantit confort et maintien de la forme.

STRETCH FABRIC

Tissu en coton extensible. Ce tissu associe le confort du coton à la fonctionnalité de la fibre élastomère, permettant de réaliser des produits confortables, résistants et hautement respirants.
