

**Model:** SMOKE

**Article:** HHA002BC

## DESCRIPTION

VISOR SMOKE Protective Visor for ANTARES Helmet

The VISOR SMOKE visor is designed to provide full facial protection in demanding working environments such as construction sites, industrial plants and laboratories. Perfectly compatible with the ANTARES helmet, it protects against impacts, dust, chemical agents and radiation, as specified in points 4-5 of the EN ISO 16321-1:2022 standard.

Key features:

Premium materials: smoke-tinted visor made of 2 mm anti-scratch polycarbonate, ABS support and fastening system in LUCEL (polyoxymethylene) and LATAMID (Nylon 66).

Lightweight and comfortable: total weight of only 125 g, easy to mount on the ANTARES helmet.

Certified protection: compliant with EN ISO 16321-1:2022.

The VISOR SMOKE visor with smoke tint combines safety, comfort and glare reduction, making it ideal for working in environments with strong lighting or sun exposure.
